Forward-Looking Statements

Statements made in this presentation include statements that are forward-looking or that express management's beliefs, expectations or hopes and are forward-looking statements under the Private Securities Litigation Reform Act of 1995. These statements include, among other things, our future financial performance and results, business strategy, plans, goals and objectives, including certain outlook, business trends, our dividend and share repurchase programs, our expectation of future macroeconomic conditions and other statements that are not historical facts, including our expectations regarding foot traffic and volume growth, and benefits to gross margins; and our expectations regarding our future growth, including growth in sales and earnings per share.

Such forward-looking statements reflect the views of management at the time such statements are made and are subject to a number of risks, uncertainties, estimates, and assumptions, including those outside of Sysco's control. Risks and uncertainties include without limitation: the impact of geopolitical, economic and market conditions and developments, including changes in global trade policies and tariffs and foreign conflicts; risks related to our business initiatives; periods of significant or prolonged inflation or deflation and their impact on our product costs, volume, foot traffic, and profitability generally; risks related to our efforts to implement our transformation initiatives and meet our other long-term strategic objectives; risks of interruption of supplies and increase in product costs; risks related to changes in consumer eating habits; and impact of natural disasters or adverse weather conditions, public health crises, adverse publicity or lack of confidence in our products, and product liability claims. Should one or more of these risks or uncertainties materialize, or underlying assumptions prove incorrect, actual results may vary materially from those indicated in our forward-looking statements. Therefore, you should not place undue reliance on any of the forward-looking statements contained herein. For more information on these risks and other concerning factors that could cause actual results to differ from those expressed or forecasted, see our Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, and other filings with the SEC. We do not undertake to update our forward-looking statements, except as required by applicable law.

NON-GAAP RECONCILIATIONS

Impact of Certain Items

The discussion of our results includes certain non-GAAP financial measures that we believe provide important perspective with respect to underlying business trends. Other than EBITDA and free cash flow, any non-GAAP financial measures will be denoted as adjusted measures to remove (1) restructuring charges; (2) expenses associated with our various transformation initiatives; (3) severance charges; (4) acquisition-related costs consisting of: (a) intangible amortization expense and (b) acquisition costs and due diligence costs related to our acquisitions. Adjustments provided herein for fiscal 2025 and fiscal 2020 results of operations also remove the impact of a goodwill impairment charge. No similar charge was applicable in fiscal 2024, fiscal 2023, fiscal 2022 and fiscal 2021. Our results for fiscal 2023 were also impacted by a pension settlement charge that resulted from the purchase of a nonparticipating single premium group annuity contract that transferred defined benefit plan obligations to an insurer and a gain on a litigation financing agreement. We incurred some adjustments due to the COVID-19 pandemic across multiple years for (1) bad debt reserves specific to aged receivables existing prior to the COVID-19 pandemic in fiscal 2023, fiscal 2022 and fiscal 2021, (2) adjustments to a product return allowance related to COVID-related personal protection equipment inventory in 2023 and (3) a write-down of COVID-related personal protection equipment inventory due to the reduction in the net realizable value of inventory in fiscal 2022. In fiscal 2022, we also incurred losses on the extinguishment of long-term debt and an increase in reserves for uncertain tax positions. Our results for fiscal 2021 were also impacted by losses on the sale of businesses and a change in tax rates in the United Kingdom. These are collectively referred to as Certain Items.

Management believes that adjusting its cost of sales, gross profit, operating expenses, operating income, interest expense, other expense (income), net earnings and diluted earnings per share to remove these Certain Items and presenting its results on a constant currency basis provides an important perspective with respect to our underlying business trends and results. It provides meaningful supplemental information to both management and investors that (1) is indicative of the performance of the company's underlying operations and (2) facilitates comparisons on a year-over-year basis.

Sysco has a history of growth through acquisitions and excludes from its non-GAAP financial measures the impact of acquisition-related intangible amortization, acquisition costs and due-diligence costs for those acquisitions. We believe this approach significantly enhances the comparability of Sysco's results for fiscal 2025, fiscal 2024, fiscal 2023, fiscal 2022, fiscal 2021, and fiscal 2020.

Set forth below is a reconciliation of sales, cost of sales, gross profit, operating expenses, operating income, interest expense, other expense (income), net earnings and diluted earnings per share to adjusted results for these measures for the periods presented. Individual components of diluted earnings per share may not be equal to the total presented when added due to rounding. Adjusted diluted earnings per share is calculated using adjusted net earnings divided by diluted shares outstanding.

⁽¹⁾ Fiscal 2023 represents an adjustment to a product return allowance, related to COVID-related personal protection equipment inventory. Fiscal 2022 represents a write-down of COVID-related personal protection equipment inventory due to the reduction in the net realizable value of inventory.

⁽²⁾ Fiscal 2025 includes \$57 million related to restructuring and severance charges and \$126 million related to various transformation initiative costs, primarily consisting of supply chain transformation costs and changes to our business technology strategy. Fiscal 2024 includes \$56 million related to restructuring and severance charges and \$64 million related to various transformation initiative costs, primarily consisting of changes to our business technology strategy. Fiscal 2023 includes \$20 million related to restructuring and severance charges and \$43 million related to various transformation initiative costs, primarily consisting of changes to our business technology strategy. Fiscal 2022 includes \$59 million related to restructuring and severance charges and \$49 million related to various transformation initiative costs, primarily consisting of changes to our business technology strategy.

⁽³⁾ Fiscal 2025 includes \$133 million of intangible amortization expense and \$27 million in acquisition-related costs. Fiscal 2024 includes \$128 million of intangible amortization expense and \$31 million in acquisition-related costs. Fiscal 2023 includes \$105 million of intangible amortization expense and \$10 million in acquisition-related costs. Fiscal 2022 includes \$106 million of intangible amortization expense and \$33 million in acquisition-related costs.

⁽⁴⁾ Represents the reduction of bad debt charges previously taken on pre-pandemic trade receivable balances in fiscal 2020. Fiscal 2020 represents excess bad debt charges recognized on the increase in past due receivables arising from the COVID-19 pandemic.

⁽⁵⁾ Fiscal 2023 primarily includes a pension settlement charge of \$315 million that resulted from the purchase of a nonparticipating single premium group annuity contract that transferred defined benefit plan obligations to an insurer and \$122 million in income from a litigation financing agreement.

⁽⁶⁾ Fiscal 2021 includes \$63 million related to restructuring charges and severance charges and \$56 million related to various transformation initiative costs, primarily consisting of changes to our business technology strategy. Fiscal 2020 includes \$265 million related to severance, restructuring, and integration charges and \$106 million related to various transformation initiative costs, primarily consisting of changes to our business technology strategy.

⁽⁷⁾ Fiscal 2021 represents \$74 million of intangible amortization expense and \$6 million in acquisition-related costs. Fiscal 2020 represents \$65 million of intangible amortization expense.

⁽⁸⁾ Fiscal 2021 includes losses from the sale of businesses and other non-recurring gains and losses. Fiscal 2020 represents the impairment of assets held for sale.

⁽⁹⁾ The tax impact of adjustments for Certain Items is calculated by multiplying the pretax impact of each Certain Item by the statutory rates in effect for each jurisdiction where the Certain Item was incurred.

⁽¹⁰⁾ Represents a net benefit from remeasuring Sysco's accrued income taxes, deferred tax asset and deferred tax liabilities due to changes in tax rates in the United Kingdom.

⁽¹¹⁾ Individual components of diluted earnings per share may not add up to the total presented due to rounding. Total diluted earnings per share is calculated using adjusted net earnings divided by diluted shares outstanding.

Sysco Corporation and its Consolidated Subsidiaries
Non-GAAP Reconciliation (Unaudited)
Free Cash Flow, FY25
(In Millions)

Free cash flow represents net cash provided from operating activities less purchases of plant and equipment and includes proceeds from sales of plant and equipment. Sysco considers free cash flow to be a liquidity measure that provides useful information to management and investors about the amount of cash generated by the business after the purchases and sales of buildings, fleet, equipment and technology, which may potentially be used to pay for, among other things, strategic uses of cash including dividend payments, share repurchases and acquisitions. However, free cash flow may not be available for discretionary expenditures, as it may be necessary that we use it to make mandatory debt service or other payments. Free cash flow should not be used as a substitute for the most comparable GAAP financial measure in assessing the company's liquidity for the periods presented. An analysis of any non-GAAP financial measure should be used in conjunction with results presented in accordance with GAAP. In the table that follows, free cash flow for each period presented is reconciled to net cash provided by operating activities.

	52-Week Period Ended Jun. 28, 2025
Net cash provided by operating activities (GAAP)	<u>\$ 2,510</u>
Additions to plant and equipment	(906)
Proceeds from sales of plant and equipment	214
Free Cash Flow (Non-GAAP)	<u><u>\$ 1,818</u></u>

Projected International Adjusted Operating Income and Total Sysco Adjusted EPS Guidance

Our international adjusted operating income and total Sysco adjusted earnings per share are non-GAAP financial measures; however, we cannot predict with certainty the magnitude or scope of certain items that would be included in the most directly comparable GAAP measure for the relevant future periods, and such items may be significant. Due to these uncertainties, we cannot provide a quantitative reconciliation of projected international adjusted operating income and total Sysco adjusted EPS to the most directly comparable GAAP financial measure without unreasonable effort. However, we expect to calculate international adjusted operating income and total Sysco adjusted earnings per share and resulting compound annual growth rate (CAGR) amounts for future periods in the same manner as the reconciliations provided for the historical periods herein.
